

1. CHANGE IN FILE SIZES

2. NEW WEB SITE QEID ENTRY PORTAL

It is time for another 4C's Quarterly Electronic Image Division (QEID) Competition and the deadline is October 31, 2018. The judging this quarter will be done by the Two Rivers Camera Club, TRCC in Chiloquin, Oregon and all members of 4Cs Clubs can enter up to 3 entries. .

It should be nice because we no longer use email attachments to enter images in the QEID Competitions. Mac users should be happy to know that they no longer need to zip their entries and the files sizes and file naming is automatically checked so you no longer need to worry if your entries meet the requirements. The 4Cs Board also increased the maximum files sizes for images so you can now enter larger files or you keep the file sizes the same as before. Our goal is to encourage all 4Cs club members to enter the QEID and to make the entry process as easy as possible.

Go to WWW.4CS.CLUB TO FIND OUT MORE ABOUT CHANGES , FILE SIZES AND ALSO TO ENTER YOUR ENTRIES. The deadline is October 31st and only the first 3 entries will be accepted for the competition. Unlike some other clubs, the 4Cs still does not charge an entry fee. The only requirement is that you are a member of one of the 4Cs Clubs. Awards are sent to the various 4Cs clubs for presentation to the winners in person at a club meeting.

Be aware that entries are no longer sent as attachments to email messages and errors in file sizes will be called to your attention. If you have questions or problems, I am happy to answer your questions via email at mrande@teleport.com. Please don't send your entries to that email address but questions are just fine. Check out the new QEID Competition Entry Portal at WWW.4CS.CLUB and if you have any questions the answers can be found by clicking the ABOUT TAB at that web site.

We have worked hard to identify and find all of the bugs in the new QEID Entry system. I hope we found and fixed all of the bugs but if we identify problems they will be fixed. Our goal is to make the QEID entry process as easy and effective as possible. Regarding the testing, I want to give a

special thanks to Rod Stroh, Gary Thurman, John Craig, Art Burkhalter and Gordon Battaile. You guys are not only good photographers but you are good software beta testers as well. Thanks so much for donating your time and expertise. If I missed someone that deserves thanks for their testing, I apologize in advance.

GO TO THE NEW WEB SITE AND CHECK IT OUT AT WWW.4CS.CLUB.
